MONEY, BONDS AND STOCKS.

A Very Active Market in New York, Closing at the Best Prices.

NEW YORK, Oct. 1 .- Money on call easy at 2@7 per cent., the last loan being made at 2, slosing offered at 2 per cent.

Prime mercantile paper, 42 27 per cent. Sterling exchange quiet but steady at \$4.83}

for sixty-day bills, and \$4.874 for demand. The total sales of stocks to-day were 507,315 shares, including the following: Canada Southern, 9,845; Delaware, Lackawanna & Western, 27,060; Erie, 17,325; Lake Shore, 12,865; Louisville & Nashville, 22,316; Michigan Contral, 2,385; Missouri Pacific, 9,245; Northwestern, 9,900; Northern Pacific preferred, 7,474; Oregon Transcontinental, 12,153; Pacific Mail, 7,-876; Peoria, Decatur & Evansville, 3,910; Reading, 80,310; Richmond & West Point, 23,795; St. Paul, 28,480; Texas Pacific, 8,800; Union Pacific, 10,285; Western Union, 26,490; Wheeling &

Lake Erie, 4,995. With the exception of one day last week, tolay's stock market was more active than for any lay for some months, and prices advanced steadily, though slowly, during the most of the lay. There was a rampant "bullish" feeling among the local operators and the room traders, and this served to rally the list on several oclarge proportions, would have brought about a reaction. The broadening tendency of the marset was very apparent, and the dealings exended to-day to many stocks which have lain stocks dealt in during the day something unprecedented. The news the day was almost invariably avorable, the advices from the West, especialy, having a tendency to affect values favorably. here was an attempt to make some capital out of the quarterly settlements, and money, late n the afternoon, was bid up to 7 per cent. for a hort time, but it closed offered at 2 per cent., fter roling easy throughout. There were sevral special movements in the list, the Southern tocks showing marked strength at times, while Nheeling, Lake Erie, Jersey Central, Chicago Eastern Illinois preferred, and Waall buoyant, and reports circulated in the room hat Mr. Gould was again taking a hand in the speculation had considerable influence. New England was again a feature, but it was slugrish in the forenoon and sagged somewhat, its inal changes being insignificant. The Grangers and coalers, with the exception of St. Paul and Reading; were quiet, but they displayed a firm lone, with small movements for the day. The market opened active and strong, with advances extending to per cent., and while the list was 'everish and excited in the early trading, it was generally strong, and Big Four, Louisville & Nashville, Reading & Lackawauna made marked gains. There was a decrease in the amount of business done, the animation continuing to fall away until the last hour, and the market fluctuated within narrow limits except for Wabash preferred, Jersey Central and Wheeling & Lake Erie preferred, which male advances for more than a point. The anal dealings were devoid of special feature,

Reading, being the only marked advances. The bond market was very active to-day, and even stronger than the share list, and the features of the dealings were the Chesapeake & Onio currency certificates, the St. Louis, Arkansas & Texas seconds, the Reading second insomes, and the Ohio Southern incomes, which contributed \$664,000, \$400,000, \$265,000 and \$197,000, respectively, to to-day's total of \$3,-351,000. The first named bonds were specially strong, and rose nearly 3 per cent., while toe 3t. Louis, Arkansas & Texas bonds, after a gain of 2 per cent , reacted and lost the entire improvement Other marked gains were Mobile & Dhio fours, 2 to 49, and Richmond & West Point trust fives, 2 to 974

and the close was active and strong, near the

best prices reached. The final changes were,

with but few exceptions, in the direction of

higher prices, though the majority were for

fractions only, a gain of li per cent, in Chicago

& Eastern Illinois preferred, and 1 per cent. in

Government bonds were dull but firm. State bonds were dull and without feature.

CHICAGO, Oct. 1.-The wheat market was again very active and greatly unsettled, more so than during the closing days of last week, and a nervous, feverish feeling prevailed. Fluctuations in prices were unusually rapid and severe.
Advances of ic between trades, and also declines of i aic between trades occurred during the session. Prices were advanced some 410 42c above the closing prices of Saturday, closing about 2c higher for October, 2to higher for De-cember, and 3to higher for May than the clos-ing figures of Saturday. The opening was unsettled and | @lic higher, but the advance was met by very large offerings, the operator alleged to have control of the market being credited with selling 2,000,000 bushels for future delivery. But this only appeared to check the advance, for the demand was very ctive, and when this large lot absorbed the market started up at to jumps. Developments to-day would indicate. and it is quite generally believed, that some parties who have been selling "short" of late have come to the conclusion that it is better to cover, and the demand was largely from this source. Two failures were announced, which helped to unsettle affairs. At the early advance, or when December touched \$1.08, there was a halt in the advance and a reaction set in. Prices dropped off 10 to between trades, and but few seconds elapsed in the decline from \$1.07 to \$1 054. Later the market ruled more quiet, advancing some, and closed steady. A fairly active trade was witnessed in corn, a firmer feeling prevailed, and fluctuations were within a higher range of prices. The opening was quite excited, and first sales were a shade higher than the closing prices of Saturday, after which the market advanced, with some reaction, ic. declined c. ruled steady and closed with October to. November fe, and May to higher than Saturday There was an active demand for November, this future selling at one time at ic premium over October. There was also considerable changing of Octoper into the deferred deliveries. Deliveries on October contracts were reported moderate, about 300,000 busnels going around, a good share of which was said to have gone to a large local operator. The advance in the other markets affected oats and caused prices to rule to to higher, with near futures closing better, but May unchanged. In mess pork a large business transpired in October and January, but trading in other months was light. "Shorts" bought freely and absorbed the offerings with such avidity that, after a decline of 25c, a sharp advance of 55c followed. At the outside a prominent house sold heavily, and prices declined 171 20c, and the market closed steady. Trading in lard, early, was active, but chiefly in the near and very distant futures. The market opened steady, advanced .47% on October and declined .37 c. The other futures fluctuated within a .15@.30c range, and closed easy. Short-rib sides were traded in quite freely, early, but an usettled feeling prevailed and prices advanced slightly. Later, the market became quiet and closed steady. The leading futures ranged as follows:

INDIANAPOLIS MARKETS.

A Firm Market All Along the Line Covers the Situation.

INDIAMAPOLIS, Oct. 1. There was an active trade in progress to day in most departments, and on nearly all lines of goods a firm tone to prices prevailed. Dry goods men were quite busy and grocers had a big trade. Coffees are in strong position. The New York Bulletin of yesterday says: "Brazil grades, notwithstancing the recent considerable addition to stock, appear to be well enough in hand to prevent any open offering of magnitude or in such a manner as to act as a direct pressure, and some holders talk very stiffly in tone. There is, however, no doubt an absence of universal faith in even the present line of values as a basis for investment beyond the clearly shown necessities of the hour, and buyers are very un certain in their movements over both actual goods and contracts. A pretty good amount of coffee has gone to the interior during the month. The depletion of the seaboard stock, that for a time following the distribution was a more or less strengthering feature, has now been made good, and further quantities are starting forward, so that no one really feels any great alarm over the supply, and each succeeding arrival shows that assortment is likely to prove equal to any ordinary requirement." Sugars are hardly as firm as last week, although no change in prices is noted to-day. A better feeling prevails ail round for September packs of canned goodspeaches, tomatoes and corn-now that the peried is at hand when it is possible to obtain more

ing 16c, and selling from store at 17c to 18c. There was a good attendance on 'Change today, and, in sympathy with other markets, a good deal of excitement on wheat. Millers did no bidding, leaving it all with speculators. Corn ruled dull: bidding tame, especially the white grades. Oats firm and in good demand at quotations. Track bids to day ruled as follows:

reliable estimates of the shortage. The prod-

uce markets are active. Apples pears and

peaches all firm at quotations. Potatoes, both

Irish and sweet, meet with fair sale at un-

changed prices. Eggs rule strong, shippers pay-
